Swimmers have been selected after careful consideration by the coaching staff to be the Cascade representatives at this international event based on their: attitude, attendance, coachability, communication skills, training, work ethic, and commitment to their swimming.

The swimmers attending the meet are typically 15 years of age during the season although this may be altered at the coaches discretion from time to time.

Swimmers are staying with families from the host club. Please note that we do not provide nor are we asked for input in terms of where the swimmers stay (their host families) or which other swimmers may be staying with the host. An itinerary of events is generally not available until right up to the last minute. More information to be provided closer to the event and information session for parents will be scheduled in the New Year.

This event is being subsidized in part by the Cascade Swim Club.

This meet is an opportunity to once again meet and compete against athletes from all over the world and experience a new culture. Swimmers at this meet over the years have come from the following countries:

Event Notes: Cascade will be booking all travel for the group. Parents need to download, print off, sign and have notarized the standard “Permission to Travel abroad” form off of the meet info page on the Cascade website prior to attending the event.

As this event is being subsidized your \$1000 cost includes all expenses other than spending money and meals on travel days for which swimmers should bring some Euros.

There may be additional sightseeing costs that we cannot anticipate at the moment.

Swimmers should bring a well thought out gift for their host families.
